Date of Issue: 11th July, 2019

Time of Issue: 5:00 PM

Advisory on Rainfall

The seasonal monsoon trough is lying over the Himalayan range. Due to this condition the southern and eastern parts of the country is very likely to receive heavy to very heavy rainfall during the next 72 hours (12th-14th July) while the rest of the places is likely to receive moderate rainfall.

Due to very heavy rainfall flash floods, floods and landslides are likely over the southern and eastern parts of the country.

Updates will be issued if there are any significant changes in the forecast.
