NCHM/NWFWC/FORECAST-14/2018-19/36

8 September, 2018

**Heavy rain advisory**

A well-marked low pressure system lies over central part of India. It is likely to weaken further during next 48 hours.

Under the influence of the system, heavy rainfall is expected at southern and eastern parts of the country during next 72 hours (9-11 September) while isolated places of central, western and northern parts of the country will receive light to moderate rainfall.

Updates will be issued if there are any changes in the forecast.

Please contact at 77452632/335578 for more information.
