NCHM/NWFWC/FORECAST-14/2018-19/ 38

10 September, 2018

**Heavy rain advisory (update-1)**

The monsoon trough line lies over the north of its normal position and strong southwesterly wind carrying moisture from Bay of Bengal is likely to continue over the regions for next 72 hours (11<sup>th</sup> -13<sup>th</sup> September).

Under the influence of this system, moderate to heavy rain will persist for next 72 hours over the southern and isolated places of the eastern parts of the country. Rest of the country will receive light to moderate rain. Thunderstorm is likely over the isolated places of southern and eastern parts of the country.

Updates will be issued if there are any changes in the forecast.

Please contact at 77452632/335578 for more information.
